Crosdale Consulting

Discover what others overlook. — Strategic Research · Technology Intelligence · Practical Solutions

COMPANY OVERVIEW

Crosdale Consulting helps organizations identify overlooked opportunities, evaluate complex technology and operational challenges, and develop evidence-based strategies that improve decision-making and performance. Founded in 2015, the firm serves commercial organizations, state and local agencies, federal buyers, and prime contractors.

CORE COMPETENCIES

- **Strategic research & opportunity assessment** — feasibility, alternatives analysis, technology evaluation
- **Technology & AI advisory** — AI governance, risk, and readiness assessment; vendor evaluation
- **Cloud, IT & cybersecurity advisory** — IT service management, cloud and IT modernization, security governance
- **Operational strategy & transformation** — process improvement, implementation planning, program support

DIFFERENTIATORS

- Research-driven method: discover, investigate, analyze, recommend, activate
- Scoped, plain-language deliverables with uncertainties stated
- Small-firm responsiveness with a single accountable point of contact
- Conflict screening on every opportunity before commitment

PAST PERFORMANCE

Engagements include the Maryland Black Caucus Foundation, Salynt, Inc., and AngelHack-sponsored work for the U.S. Chamber of Commerce and Capital One. Company-level references and details are available on request.
